COVID-19 preparedness

• All a-iTrust business parks and Park Square Mall have been accredited with the British Safety Council's certification for global benchmark in COVID-19 control measures.

## **COVID-19 updates**

COVID-19 in India

#### **Declining trend**

• Daily COVID-19 recoveries outpacing infections in almost all states. Active cases form 2% of the caseload, recoveries at 97% and fatality rate further declined to 1.4%.

#### Phase-wise reopening to revive economy and vaccination drive

• Nation-wide vaccination rolled out from 16 January 2021. Metro services have resumed; no restriction on inter-state and intra-state movement; schools and cinemas have reopened; international air travel and train services remain suspended, with cargo operations exempted.

Business updates and impact

#### **Operations**

- All parks were operational throughout the year to support our tenants' operations.
- Park population remains at <10% across parks as most continue to telecommute except for operationally-critical roles. Park Square Mall footfall continues to increase with digital promotions, albeit still below pre-COVID levels.
- Construction works at all on-going projects have resumed. Availability of labour supply and supply chain improved considerably; working to catch-up on progress. Expected delays in construction timeline in some projects.

#### Impact on business

- No office rental rebates given. We continue to closely partner our tenants for their business needs.
- Collections for office rents remain healthy with 99% of October, 98% of November, and 98% of December billings collected.
- Rent reliefs provided primarily to retail tenants since April 2020 until footfall revives meaningfully.

Outlook

- Gradual return of tenants to the business parks is expected in the coming months. Mall footfall is likely to improve when ITPB tenants gradually re-populate the Park. As the situation remains fluid, we expect leasing activity to only pick up in the later part of 2021.
- The IT-BPM sector has benefitted from the acceleration of digital transformation and IT services have seen strong customer demand arising from COVID-19. We remain confident in the long-term resilience of our IT Parks asset class and growth in logistics markets.

#### **Balance** sheet

- Trustee-Manager does not hedge equity.
- At least 50% of debt must be denominated in INR.

#### Income

- Income is repatriated semi-annually from India to Singapore.
- Trustee-Manager locks in the income to be repatriated by buying forward contracts on a monthly basis.

### Funding strategy

- The Trustee-Manager's approach to equity raising is predicated on maintaining a strong balance sheet by keeping the Trust's gearing ratio at an appropriate level.
- Trustee-Manager does not borrow INR loans onshore in India as it costs less to hedge SGD borrowings to INR-denominated borrowings using cross-currency swaps and derivatives.

### Income distribution policy

- To distribute at least 90% of its income available for distribution.
- a-iTrust retains 10% of its income available for distribution to provide greater flexibility in growing the Trust.
